

# Tharuka Thennakoon

Software Engineering Undergraduate | Full-Stack Developer | Aspiring Software Engineer

✉ thennakoontharuka214@gmail.com ☎ 0703834173 📍 Colombo, Sri Lanka 🌐 LinkedIn

🐙 GitHub 📁 Portfolio

## PROFILE

Enthusiastic Software Engineer with strong skills in Java, React, and RESTful API development. Passionate about building efficient, scalable applications and contributing to innovative projects. Looking for an opportunity to grow within a dynamic development team.

## SKILLS

### Technical Skills

- Languages: Java, Python, JavaScript, TypeScript, Dart, C, C#
- Frontend: React.js, Next.js, Tailwind CSS, Flutter
- Backend: Spring Boot, Node.js, REST APIs, JWT Authentication
- DevOps & Tools: Docker, Kubernetes, Git, GitHub, CI/CD, Linux, Postman
- Databases: MySQL, MongoDB, PostgreSQL
- Other: Agile Workflow, Unit Testing, Multi-threading, Socket Programming

### Soft Skills

- Problem-solving and analytical thinking | • Team collaboration and communication | • Time management and adaptability | • Attention to detail | • Critical thinking and creativity | • Eagerness to learn new technologies

## PROJECTS

### MyTurn – Smart Fuel Queue & Appointment Management System(Group)

Present

Next.js | Spring Boot | PostgreSQL

- Developed a full-stack queue and appointment management system with real-time tracking to reduce waiting time and improve service efficiency.
- Designed and implemented secure RESTful APIs using Spring Boot with JWT authentication, and built a responsive frontend using React.

### AI-Powered Code Review & Bug Prediction System(Individual)

Present

React | .NET Web API | Python (FastAPI) | PostgreSQL

- Developed a full-stack intelligent platform to analyze source code, predict potential bugs, and improve software quality using machine learning models.
- Built secure RESTful APIs with .NET Web API, integrated Python AI services for risk prediction, and designed an interactive React dashboard for reports and analytics.

### WayGo – Bus tracking system(Gropu)

2025

Flutter | Node.js | Mongo DB

- Developed a full-stack bus seat booking app with live tracking.
- Implemented secure user authentication and role-based access.
- Integrated REST APIs for seat status updates and schedule management.

### Quick Cert - Online Income statement management system(Gropu) 📁

2024

Angular | HTML | CSS | Node.js | MySQL

- Built a full-stack web application to record, calculate, and generate income statements online.
- Implemented secure user authentication with dynamic data visualization and PDF report export.
- Designed RESTful APIs and a responsive dashboard for real-time financial tracking and analysis.

### Distributed File Sharing System (Individual)

2026

Java | Socket Programming | Multi-threading | TCP/IP Networking

- Developed a peer-to-peer distributed file sharing platform that enables users to share, search, and download files efficiently across a network.

- Implemented a centralized tracker server for client registration and file indexing, while enabling direct client-to-client file transfer using Java socket programming.
- Designed multi-threaded server and client architectures to support concurrent connections, real-time communication, and scalable file transfer operations.

## EDUCATION

---

### GCE Advanced Level (A/L)

Pinnawala Central College

2018 – 2020

Kegalle, Sri Lanka

### BSc (Hons) in Software Engineering

Sabaragamuwa University of Sri Lanka

2023 – 2027

Sri Lanka

### Diploma in English

British Way English Academy

2022

Kurunegala, Sri Lanka

## CERTIFICATES

---

- Full Stack Web Development – University of Moratuwa (Ongoing)
- Java Collections Framework + Generics, Lambdas & Stream API-Udemy [↗](#)
- AI/ML Engineer – SLIIT (Ongoing)
- Professional Certificate in DevOps-Udemy [↗](#)
- Professional Diploma in Agile and Project Management-Udemy [↗](#)

## EXTRACURRICULAR / VOLUNTEERING

---

- **Volunteer – PearlHack 3.0, IEEE WIE, SUSL:** Assisted in organizing and supporting participants.
- **Secretary Lead – TechTalk, SOCS, SUSL:** Coordinated events, managed communications, and led team logistics.
- **Organizer – GeekZone v1.0, IEEE, Sabaragamuwa University:** Helped plan and execute technical workshops and competitions for students.
